

Trimble Nomad 900

The Trimble® Nomad® outdoor rugged handheld computer has power and capabilities to help you do more in the field. The Nomad computer is extremely rugged, meeting rigorous MIL-STD-810F and IP68 standards for water and dust, yet is light and easy to carry.

Featuring an 806 MHz processor, the Nomad computer also includes 128 MB of memory, a long-life 5200 mAh lithium-ion battery, a sunlight readable full VGA display, integrated Bluetooth, user-accessible CompactFlash (CF) and SD/SDHC card ports, plus I/O ports that include USB host/client and an audio jack.

All Nomad 900 units come standard with Windows Mobile® 6.1 and are RoHS compliant. All models support ten operating system languages that are selectable at initialization.

Models Available:

| |
|----|
| B |
| L |
| LC |
| LE |
| X |
| XE |
